Finding what you want in the ‘Phil Bendle Collection’ wiki

The screenshots below show the Phil Bendle landing page.

1. On the very top left, ‘Category’ in small blue print will open the list of all pages in the wiki.
2. There are 30 Subcategories where we have grouped the Phil Bendle Collection pages, much like the left hand panel in the original T.E.R.R.A.I.N. site. Click on a subcategory and see the thumbnail images of each species and the pages in that category listed below.
3. A full alphabetical list of all the pages in the Phil Bendle Collection are seen below the Subcategory lists.
